

Article Information

Dynemech Anti-vibration Ds2 Insulation Plate is made from high grade synthetic composite material. This sheet is resistant to water, oils, lubricating oils, fuels, etc. used in shop floor. This sheet has defined stress value and can be placed directly under the machine as per the weight of the machine and no. of mounting positions. This sheet will not deform plastically, if the weight of machine does not exceed maximum load value of this insulation plate..

Application

Technical Data

High vibration insulation for both active and passive range, medium presses, stamping machine, also well suited for high speed rotating machine on upper floors.

Natural Frequency (Hz)

Load Capacity (Kg/Sq cm)	02-08
Natural Frequency (Hz)	08-35
Thickness (mm)	25
Coeff of Fulkion	0.0

Coeff. of Frition 0.8 Shore A Hardness 80-82

WorkingTemp Range ° -20 to +70

Oil & Chemical Resistance

Resistant to fuels, lubricating oils, water etc. used in the shop floor Composite material made from Nitrile Rubber Cork Particles & polyster fiber. The composite material ensures high damping capacity, Construction high compressive strength & high load capacities.
